

THE DAILY WATCH

Cooking Competition

Students from DP 1 and DP 2 took part in the school's inaugural cooking competition. The event featured five teams, each responsible for preparing a specific recipe in a two-hour time frame. Over the course of the first term, students had been participating in weekly cooking classes, and this competition provided them with an opportunity to put into practice what they had learned. It was a delightful experience, not only for the students but also for everyone in attendance who could savor traditional dishes.

Students With Their Stalls

TEDx Event at DPS

Attending TEDx DPSSTSSchool was an incredible experience for some of the DP students! The theme, “Uncovering Uncertainty,” was very much relevant to them, especially after the Covid-19 pandemic. The lineup of speakers were truly remarkable, representing a diverse spectrum of fields, from renowned fashion designers like Azra Mahmood to accomplished singers like Shittom Ahmed, philanthropists like GMB Akash, educators like Fyruz Khan, and even the esteemed member of the High Commission of India, Rajesh Kumar Agnihotri. Each speaker shared their personal journey and insights as to how they have navigated the unpredictable twists and turns in their respective paths. It was an eye-opening day filled with inspirational stories and valuable lessons on embracing uncertainty.

Students Take a Commemorative Picture

Origami

Both students in DP 1 and DP 2 are engaged in a CAS Creativity experience where they are mastering the experience of origami, which involves the intricate folding of paper to create variety of shapes. The students are diligently crafting distinct paper sculptures to demonstrate their creativity and honed skills.

Students Exhibit Their Creative Skills Through Origami

Celebrating Prominent Characters in Bangla Literature

Bangla literature is filled with remarkable characters, and in order to celebrate them, DP 1 students have embarked on a journey to bring them to life through the medium of movie posters! The students utilized their artistic skills, combining graphic design with their creativity and interpretation of these characters. They delved into these characters, the stories and the themes present. They translated their insights into visually captivating and thought-provoking posters.

Acknowledging Student Achievements

It is an honour to announce that AusIS student of DP2, Mahjabin Muneer Zaira, has taken part in the Mental Math World Cup 2023 in OPEN category! This competition took place during the summer holidays. Sitting for the exam in a hotel lobby was the true struggle but to her surprise she did better than she expected, winning 5th in the Country and 92nd in the World. Seeing others as well as herself take part in such opportunities taught her the value of doing more than just academics. We believe students of AusIS can bring back many more achievements like this one in the future and make us proud!
